YIELD OPPORTUNITY WITH SUSTAINABLE INVESTING

The Premium ESG Protected Certificate 6 is equipped with 100% capital protection and 10% fixed income at the end of the term. Moreover, the certificate enables investors to participate 1:1 in the performance of the MSCI® World Top ESG Select 4.5% Decrement Index from +10% to max. +35% in relation to its starting value at the end of the term. The minimum yield therefore equals 10%* (2% annually/1.92% p.a.) and thanks to the participation in the index performance, the investor can reach a maximum yield of 35%* (7% annually/6.17% p.a.).

This investment product complies with the sustainability standard for Raiffeisen Certificates and takes into account significant adverse impacts on sustainability factors ("PAIs"). raiffeisenzertifikate.at/en/sustainability

*in % of the nominal value, provided that the certificate was purchased at the issue price of 100%. The purchase fee is not taken into account in the yield calculation. The amount of margin does not affect the overall yield.

In recent years, people have increasingly focused on environmental, social and governance (ESG) criteria not only in everyday decisions, but also in investing. Therefore, many investors have become interested in investing in the stock market of sustainable companies, but may still be concerned about the full market risk. The Premium ESG Protected Certificate 6, which is based on the global index of sustainable stocks from the renowned company MSCI®, can be the solution to this dilemma.

How the certificate works

At the initial valuation date, the starting value of the MSCI® World Top ESG Select 4.5% Decrement Index is determined (closing price as of Jun 29, 2023). At the end of the term, the performance of the MSCI® World Top ESG Select 4.5% Decrement Index is evaluated. This means that at the final valuation date (Jun 27, 2028) the index closing price is compared to the starting value. At the final valuation date one **of the following scenarios applies:**

1. Increase in the index > +10% of the starting value

→ 1:1 participation in the index performance up to max. +35% and redemption at 100% of the nominal value

At the end of the term, investors will be paid a yield 1:1 to the increase of the underlying index (percentage development of the index from the starting value to the final reference value on the final valuation day) up to max. +35% of the nominal value in addition to the 100% of the nominal value.

2. Increase in the index ≤ +10% of the starting value

→ fixed income of 10% and redemption at 100% of the nominal value (capital protection)

Redemption of the certificate on the maturity date will take place at the level of the capital protection (100% of the nominal value) and a fixed income of 10% of the nominal value will be paid (equals EUR 100 per EUR 1,000 nominal value).

Opportunities

- **Investment in a well-diversified global stock index:**
 The MSCI® World Top ESG Select 4.5% Decrement Index contains more than 500 stocks of sustainable companies from developed countries around the world.
- **100% capital protection and 10% fixed income at the end of the term:**
 At the end of the term the investor obtains at least 100% capital protection and fixed income of 10% of the nominal value (2% annually/1.92% p.a.) even in the case of negative index performance.
- **Secondary market:**
 Flexibility through tradability on the secondary market, no management fees.

Risks

- **Price fluctuations during the term:**
 During the term the price of the certificate may drop below the capital protection level; the capital protection applies exclusively at the end of the term. Loss of value due to inflation is not covered by the capital protection.
- **Limited yield opportunity:**
 The opportunity to achieve a yield is in any case limited and the maximum yield over five years is 35.00% of the nominal value (7.00% annually/6.17% p.a.).
- **Issuer risk/Bail-in:**
 Certificates are not covered by the Deposit Protection Scheme. Investors are exposed to the risk that Raiffeisen Bank International AG might be unable to fulfil its payment obligations in respect of the described financial instrument such as in the event of insolvency (issuer risk) or an official directive (Bail-in). A total loss of the capital invested is possible.

The complete information for all financial instruments described in this advertisement as well as the sole legal basis for potential transactions in one of the described financial instruments is the Registration Document approved by the Luxembourg Financial Market Authority (CSSF) and the Securities Note approved by the Austrian Financial Market Authority (FMA) - both documents together form the Base Prospectus - together with any supplements and the respective Final Terms of the described financial filed with the FMA. The approval of the Base Prospectus should not be construed as an endorsement of the financial instrument described herein by the competent authorities. Additional information on the financial instruments described herein may also be obtained from the respective key information documents (KIDs) that are available for download free of charge on the website of Raiffeisen Bank International AG (raiffeisenzertifikate.at) by entering the International Securities Identification Number (ISIN) of the respective financial instrument. Unless otherwise explicitly expressed in any of the cited documents above, no measures have been taken in any national legal system which should permit a public offering of the products described therein. Raiffeisen Bank International AG explicitly excludes any liability in relation to the correctness, appropriateness and completeness of the information presented herein. Certificates are risky instruments of wealth investment. Certificates react more strongly or weakly to changes of the price of the underlying instrument depending on a number of factors (e.g. volatility or correlation of the underlying instruments, interest, dividends, remaining term, changes in foreign exchange rates) and do not move simultaneously with the underlying. Under certain circumstances the issuer is authorized to redeem the certificates prior to the agreed repayment date.

Issuer Risk/Creditor Participation ("bail-in"): Any payments during or at the end of the term of the certificates depend on the solvency of the issuer ("issuer risk"). Investors are therefore exposed to the risk that Raiffeisen Bank International AG might be unable to fulfil its payment obligations in respect of the described financial instrument such as in the event of insolvency ("issuer risk") or an official directive ("bail-in"). The resolution authority may also issue such an order before any insolvency proceedings if the issuer is judged to be in crisis. Under these circumstances the resolution authority has wide-ranging powers to take action (so-called "bail-in instruments"). For example, it can reduce the claims of investors in respect of the described financial instruments to zero, terminate the described financial instruments, or convert them into shares of the issuer and suspend investors' rights. More detailed further information is available at raiffeisenzertifikate.at/en/basag. A total loss of the invested capital is possible. Investment certificates do not constitute bank deposits and are not covered by a deposit protection scheme. Past performance is no reliable indicator of future results. Please refer to the Base Prospectus for additional disclosures on risks as well as further information.

The information presented does not constitute binding tax advice. Tax treatment of investments is dependent on the personal situation of the investor and may be subject to change. As regards tax treatment and impact on the investor's individual tax situation, the investor is advised to consult with a tax advisor. This report is based on the knowledge the persons preparing the document have obtained up to the date of creation. Please note that the legal situation may change due to legislative amendments, tax directives, opinions of financial authorities, jurisdiction etc. The certificate's price is subject to several influencing factors and need not develop simultaneously to and in accordance with the underlying's performance. Such influencing factors include e.g. intensity of the underlying's price fluctuations (volatility), bond interest rates, solvency of the issuer or remaining term. If the certificate is sold prior to the end of the term, there is the risk to incur a partial or even total loss of the invested capital.
