The Underlying

The STOXX® Global ESG Leaders Select 50 EUR Index tracks the performance of 50 global companies that are among the best in the environmental, social and governance fields.

Exclusion criteria: Exclusion criteria are used to identify sustainable companies. These include the production of weapons, gambling or energy generation from nuclear power, oil or gas.

Ranking: Based on key figures from the sustainability experts at Sustainalytics.

Select: Stocks with low volatility and high dividend yields are selected.

Information on the term

Please note:

- 90% of the nominal amount will in any case be paid out at maturity; during the term, the price may fall below the issue price or the capital protection level.
- The maximum repayment is limited to 132% (of the nominal amount).
- Loss of purchasing power due to inflation is not offset by the capital protection.

Issuer risk / creditor participation: Certificates are not covered by the deposit protection system. There is a risk that Raiffeisen Bank International AG may not be able to meet its payment obligations due to insolvency (issuer risk) or any official orders ("bail-in"). In such cases, the invested capital may be lost in full.

* Raiffeisen Centrobank AG is a 100% owned subsidiary of Raiffeisen Bank International AG – rating of RBI: www.rbinternational.com/ir/ratings

¹ Early closing or extension of the subscription period is within the sole discretion of Raiffeisen Centrobank AG.

In recent years, investors have been increasingly focusing on ethical, ecological and social criteria. To meet these requirements Raiffeisen Bank International AG (RBI) and its associated companies have committed themselves to sustainable corporate management and social responsibility. RBI supports the **UN Global Compact Network** in Austria, the world's largest network for corporate social responsibility (CSR) and sustainable development.

This index acts as the underlying for the new capital protection certificate **Sustainability Winner 90% V**, which enables investors to participate 1:1 in the positive performance of the STOXX® Global ESG Leaders Select 50 Price EUR index up to the cap of 132% of the starting value. This means the maximum payout at the end of the term is limited to 132% of the nominal value (3.5% p.a.). In case of a negative index performance of more than -10% of the nominal value, the capital protection of 90% applies at the end of the term. The certificate has a term of 8 years. For details on risks and opportunities please see the following pages.

FUNCTIONALITY

Beginning of the term:

At the initial valuation date the **closing price** of the STOXX® Global ESG Leaders Select 50 Price EUR index is determined as starting value and the cap (132% of the starting value) is fixed.

End of the term:

At the end of the term, the performance of the STOXX® Global ESG Leaders Select 50 Price EUR index is evaluated. The index starting value is compared to the index closing price at the final valuation date. Investors participate at 100% in the performance of the underlying index up to the cap of 132% of the starting value. Thus, the maximum payout is limited to EUR 1,320 per nominal value. In case of a negative performance of the STOXX® Global ESG Leaders Select 50 Price EUR index of more than -10%, the capital protection of 90% applies.

The **90% capital protection** by Raiffeisen Centrobank only applies at the end of maturity, i.e. during the term the certificate price may drop below 90%, but at the end of the term the investor obtains 90% of the nominal value in the worst case.

NOTE

The referenced opportunities and risks represent a selection of the most important facts regarding the product.

You are about to purchase a product that is not easy and difficult to understand.

For further information see the Base Prospectus (including possible amendments) – approved by the Austrian Financial Market Authority (FMA), deposited at the Oesterreichische Kontrollbank AG and published at www.rcb.at/en/securitiesprospectus (we recommend reading the prospectus before making an investment decision), in the key information document and among „Customer Information and Regulatory Issues“ at www.rcb.at/en/customerinformation

At the final valuation date one of the following scenarios applies:

SCENARIO 1: Index performance is POSITIVE

At the end of the term the increase in the index price from the starting value to the closing price at the final valuation date up to a maximum of +32% is paid out in addition to the nominal value (equals a maximum payout of EUR 1,320 per nominal value).

SCENARIO 2: Index performance remains UNCHANGED or is NEGATIVE

Investors also participate 1:1 in a slightly negative index performance. In case of price losses of more than 10% the capital protection of 90% applies at the end of the term. In this case, redemption is effected at 90% of the nominal value at the end of the term (equals EUR 900 per nominal value).

EXAMPLE: REDEMPTION AT THE END OF THE TERM

	INDEX PERF.	MECHANISM	REDEMPTION
POSITIVE	+40%	Redemption at the maximum amount (cap)	EUR 1,320
POSITIVE	+15%	1:1 Participation	EUR 1,150
NEGATIVE	-5%	1:1 Participation	EUR 950
NEGATIVE	-30%	90% capital protection	EUR 900

UNDERLYING: STOXX® GLOBAL ESG LEADERS SELECT 50 INDEX

- **Index calculation:** by the independent index provider STOXX Ltd.
- **Best "ESG Companies":** ecological, social and governance criteria
E - Environmental Leaders, S - Social Leaders, G - Governance Leaders
- **Index weighting:** according to the inverse volatility of the shares, whereby the maximum weighting of an individual share may not exceed 10%.
- **Exclusion criteria:** Companies considered non-compliant with the UN Global Compact principles are explicitly excluded from the index
- The **UN Global Compact Principles** contain:
labour standards, human rights, environmental protection, fight against corruption

OPPORTUNITIES

- **Participation:** The certificate enables investors who do not wish to invest into single shares to participate in the performance of a global sustainability index.
- **90% capital protection:** The Sustainability Winner 90% V is 90% capital protected at the end of the term, i.e. at the end of the term the investor obtains at least 90% of the nominal value.
- **Flexibility:** Tradability on the secondary market, no management fees

RISKS

- **Limited loss risk:** If the closing price of the STOXX® Global ESG Leaders Select 50 Price EUR index quotes below 90% of the starting value on the final valuation date, investors incur (based on the issue price of 100%) a loss of 10% of the nominal amount.
- **Limited yield opportunity:** The maximum payout is limited to EUR 1,320 per EUR 1,000 nominal value, investors do not participate in price increases of the index beyond the cap of 132% of the starting value.
- **Capital protection only at the end of the term:** During the term the price of the certificate may drop below 90%; the capital protection applies exclusively at the end of the term. Loss of value due to inflation is not covered by the capital protection.
- **Issuer risk / Bail-in:** Certificates are not covered by the Deposit Protection Scheme. Investors are exposed to the risk that Raiffeisen Centrobank AG might be unable to fulfil its payment obligations in respect of the described financial instrument such as in the event of insolvency (issuer risk) or an official directive (Bail-in). A total loss of the capital invested is possible.

DISCLAIMER

In spite of all possible care taken, the data contained in this advertisement are provided purely as non-binding information. This advertisement constitutes neither investment advice nor an offer nor a recommendation nor an invitation to execute a transaction. The information contained in this advertisement is generic and no consideration is given to the personal circumstances of potential investors. The information contained in this advertisement substitutes neither the necessary individual investment advice for the purchase or sale of investments nor shall any investment decision be taken on the basis of this document. This advertisement has not been prepared in accordance with legal requirements designed to promote the independence of investment research and is not subject to the prohibition on dealing ahead of the dissemination of investment research. The complete information for all financial instruments described in this advertisement as well as the sole legal basis for potential transactions in one of the described financial instruments is the Base Prospectus (including any possible supplements) which has been approved by the Austrian Financial Market Authority (FMA) in connection with the corresponding Final Terms of the described financial instruments. The approved Base Prospectus (including any possible supplements) and the respective Final Terms have been deposited at the Oesterreichische Kontrollbank AG as the notification office. The approval of the Base Prospectus should not be construed as an endorsement of the financial instrument described herein by the FMA. Additional information on the financial instruments described herein may also be obtained from the respective key information documents (KIDs) that are available for download free of charge on the website of Raiffeisen Centrobank AG (www.rcb.at) by entering the International Securities Identification Number (ISIN) of the respective financial instrument. Unless otherwise explicitly expressed in any of the cited documents above, no measures have been taken in any national legal system which should permit a public offering of the products described therein. Raiffeisen Centrobank AG explicitly excludes any liability in relation to the correctness, appropriateness and completeness of the information presented herein. Certificates are risky instruments of wealth investment. Should the price of the respective underlying instrument of a certificate develop adversely, an investor may lose part or all of his or her invested capital. Certificates react more strongly or weakly to changes of the price of the underlying instrument depending on a number of factors (e.g. volatility or correlation of the underlying instruments, interest, dividends, remaining term, changes in foreign exchange rates) and do not move simultaneously with the underlying. Under certain circumstances the issuer is authorized to redeem the certificates prior to the agreed repayment date. Issuer Risk/Creditor Participation ("bail-in"): Any payments during or at the end of the term of the certificates depend on the solvency of the issuer ("issuer risk"). Investors are therefore exposed to the risk that Raiffeisen Centrobank AG might be unable to fulfil its payment obligations in respect of the described financial instrument such as in the event of insolvency ("issuer risk") or an official directive ("bail-in"). The resolution authority may also issue such an order before any insolvency proceedings if the issuer is judged to be in crisis. Under these circumstances the resolution authority has wide-ranging powers to take action (so-called "bail-in instruments"). For example, it can reduce the claims of investors in respect of the described financial instruments to zero, terminate the described financial instruments, or convert them into shares of the issuer and suspend investors' rights. More detailed further information is available at www.rcb.at/en/basag. A total loss of the invested capital is possible.

Past performance is no reliable indicator of future results. Please refer to the Base Prospectus for additional disclosures on risks as well as further information. The information presented does not constitute binding tax advice. Tax treatment of investments is dependent on the personal situation of the investor and may be subject to change. As regards tax treatment and impact on the investor's individual tax situation, the investor is advised to consult with a tax advisor. This report is based on the knowledge the persons preparing the document have obtained up to the date of creation. Please note that the legal situation may change due to legislative amendments, tax directives, opinions of financial authorities, jurisdiction etc.

The price of the Capital Protection Certificate is dependent on the underlying's price. Adverse performances of the underlying may cause price fluctuations of the Certificate during the term. If the Capital Protection Certificate is sold prior to the end of the term, there is the risk to incur a substantial loss of the invested capital ("market risk"). The capital protection of 90% of the nominal value applies solely at the end of the term. During the term, the price of the Capital Protection Certificate may drop below the agreed capital protection amount. During the term, the Capital Protection Certificate's price is subject to several influencing factors and needs not develop simultaneously to and in accordance with the underlying's performance. Such influencing factors include e.g. intensity of the underlying's price fluctuations (volatility), interest rates, solvency of the issuer or remaining term. If the Capital Protection Certificate is sold prior to the end of the term, there is the risk to incur a partial loss of the invested capital. Dividends and similar rights associated with the underlying are taken into account when structuring the Capital Protection Certificate and are not paid out.
