### The Underlying

The MSCI® World Climate Change Top ESG Select 4.5% Decrement Index contains only equities that are included in the MSCI World Climate Change Top ESG Select Index (investment universe).

**Exclusion criteria:** Exclusion criteria are used to identify sustainable companies. These include the production of weapons, gambling or energy generation from nuclear power, oil or gas.

**Best in class:** Only shares of the top 50% companies with the highest sustainability rating (ESG) calculated by MSCI in the respective sector are taken into account.

**Decrement:** Reinvestment of net dividends, in exchange deduction of 5% p.a. from the index price (daily adjustment).

### Sustainability

This certificate complies with the sustainability standard for Raiffeisen Certificates.

## Information on the term

Please note:

- 100% of the nominal amount will in any case be paid out at maturity; during the term, the price may fall below the issue price or the capital protection level.
- The maximum repayment is limited to 135% (of the nominal amount).
- Loss of purchasing power due to inflation is not offset by the capital protection.

Issuer risk / creditor participation: Certificates are not covered by the deposit protection system. There is a risk that Raiffeisen Bank International AG may not be able to meet its payment obligations due to insolvency (issuer risk) or any official orders ("bail-in"). In such cases, the invested capital may be lost in full.

Ethical, ecological and socially responsible action has become an increasingly important criterion in investment. Raiffeisen Centrobank issues this certificate to make the topic of sustainability easy to invest in.

## FUNCTIONALITY

At the **initial valuation date** the **starting value** and at the **final valuation date** the **final value** of the underlying are determined. At the final valuation date the final value is compared to the starting value and one of the following **scenarios** will apply:

### 1) Final value ≥ 100% of the starting value → Redemption at 135%

If the final value is greater or equal to 100% of the starting value, the certificate will be redeemed at the maturity date at 135% of the nominal value. This amount also represents the maximum redemption (maximum amount).

### 2) Final value < 100% of the starting value → Redemption at 100%

If the final value is below 100% of the starting value, the certificate will be redeemed at the maturity date at 100% of the nominal value.

## PAYOUT PROFILE: EXEMPLARY PRESENTATION

FINAL VALUE*	REDEMPTION**
+50%	135%
+25%	135%
+10%	135%
+5%	135%
+/- 0% (= Starting value)	135%
- 5%	100%
- 10%	100%
- 30%	100%

\* in comparison to the starting value; \*\* in % of the nominal value

The nominal value is **capital protected** by Raiffeisen Centrobank AG at **the end of the term**, i.e. during the term the price of the certificate can fall below the capital protection level, but at the end of the term investors obtain at least the capital protection amount.

A total loss of the capital invested is possible.

## DISCLAIMER

In spite of all possible care taken, the data contained in this advertisement are provided purely as non-binding information. This advertisement constitutes neither investment advice nor an offer nor a recommendation nor an invitation to execute a transaction. The information contained in this advertisement is generic and no consideration is given to the personal circumstances of potential investors. The information contained in this advertisement substitutes neither the necessary individual investment advice for the purchase or sale of investments nor shall any investment decision be taken on the basis of this document. This advertisement has not been prepared in accordance with legal requirements designed to promote the independence of investment research and is not subject to the prohibition on dealing ahead of the dissemination of investment research.

The complete information for all financial instruments described in this advertisement as well as the sole legal basis for potential transactions in one of the described financial instruments is the Base Prospectus (including any possible supplements) which has been approved by the Austrian Financial Market Authority (FMA) in connection with the corresponding Final Terms of the described financial instruments. The approved Base Prospectus (including any possible supplements) and the respective Final Terms have been deposited at the Oesterreichische Kontrollbank AG as the notification office. The approval of the Base Prospectus should not be construed as an endorsement of the financial instrument described herein by the FMA. Additional information on the financial instruments described herein may also be obtained from the respective key information documents (KIDs) that are available for download free of charge on the website of Raiffeisen Centrobank AG ([www.rcb.at](http://www.rcb.at)) by entering the International Securities Identification Number (ISIN) of the respective financial instrument. Unless otherwise explicitly expressed in any of the cited documents above, no measures have been taken in any national legal system which should permit a public offering of the products described therein. Raiffeisen Centrobank AG explicitly excludes any liability in relation to the correctness, appropriateness and completeness of the information presented herein.

Certificates are risky instruments of wealth investment. Should the price of the respective underlying instrument of a certificate develop adversely, an investor may lose part or all of his or her invested capital. Certificates react more strongly or weakly to changes of the price of the underlying instrument depending on a number of factors (e.g. volatility or correlation of the underlying instruments, interest, dividends, remaining term, changes in foreign exchange rates) and do not move simultaneously with the underlying. Under certain circumstances the issuer is authorized to redeem the certificates prior to the agreed repayment date.

Issuer Risk/Creditor Participation ("bail-in"): Any payments during or at the end of the term of the certificates depend on the solvency of the issuer ("issuer risk"). Investors are therefore exposed to the risk that Raiffeisen Centrobank AG might be unable to fulfil its payment obligations in respect of the described financial instrument such as in the event of insolvency ("issuer risk") or an official directive ("bail-in"). The resolution authority may also issue such an order before any insolvency proceedings if the issuer is judged to be in crisis. Under these circumstances the resolution authority has wide-ranging powers to take action (so-called "bail-in instruments"). For example, it can reduce the claims of investors in respect of the described financial instruments to zero, terminate the described financial instruments, or convert them into shares of the issuer and suspend investors' rights. More detailed further information is available at [www.rcb.at/en/basag](http://www.rcb.at/en/basag). A total loss of the invested capital is possible.

Past performance is no reliable indicator of future results. Please refer to the Base Prospectus for additional disclosures on risks as well as further information. The information presented does not constitute binding tax advice. Tax treatment of investments is dependent on the personal situation of the investor and may be subject to change. As regards tax treatment and impact on the investor's individual tax situation, the investor is advised to consult with a tax advisor. This report is based on the knowledge the persons preparing the document have obtained up to the date of creation. Please note that the legal situation may change due to legislative amendments, tax directives, opinions of financial authorities, jurisdiction etc.

The price of the Capital Protection Certificate is dependent on the underlying's price. Adverse performances of the underlying may cause price fluctuations of the Certificate during the term. If the Capital Protection Certificate is sold prior to the end of the term, there is the risk to incur a substantial loss of the invested capital ("market risk"). The capital protection of 90% of the nominal value applies solely at the end of the term. During the term, the price of the Capital Protection Certificate may drop below the agreed capital protection amount.

During the term, the Capital Protection Certificate's price is subject to several influencing factors and needs not develop simultaneously to and in accordance with the underlying's performance. Such influencing factors include e.g. intensity of the underlying's price fluctuations (volatility), interest rates, solvency of the issuer or remaining term. If the Capital Protection Certificate is sold prior to the end of the term, there is the risk to incur a partial loss of the invested capital. Dividends and similar rights associated with the underlying are taken into account when structuring the Capital Protection Certificate and are not paid out.

Austrian Ecolabel for sustainable financial products- The Austrian Ecolabel has been awarded by the Austrian Federal Ministry for Climate Action, Environment, Energy, Mobility, Innovation and Technology to the MSCI World Climate Change Bond VII as shares/bonds/equity instruments/real estate or capital protection certificates financed with current/savings deposits or green bonds are selected pursuant to economic, ecological and social criteria. The Ecolabel ensures that these criteria and their implementation are certified by an independent authority to be suited to select shares/bonds/equity instruments, real estate, projects or capital protection certificates. Being awarded the Ecolabel does not imply an economic valuation and is no reliable indicator of the financial instrument's future results.
