**DESCRIPTION**

The certificate **4.35% Europe/USA Bonus&Safety 4** offers you an annual fixed interest rate of 4.35%. At the end of the term, redemption is effected at 100% provided that both underlyings always quoted above the barrier of 39% of their respective starting value during the term. In the event of a barrier violation during the term by at least one of the underlyings, investors are exposed to full market risk; this means a substantial capital loss is possible.

## Disclaimer

### Issuer Risk:

As a bearer bond, a certificate is not subject to Austria's deposit protection. If, in the event of insolvency, the issuer is unable to meet its obligations from the certificate, or is only able to meet them in part, certificate holders may lose a substantial part of the capital invested, or even a total loss. This risk is often also referred to as "issuer risk" or "creditworthiness risk".

### Possibility of Bail-in:

The Federal Act on the Recovery and Resolution of Banks ("BaSAG") applies. The BaSAG regulates the possibility of the regulatory resolution of banks that have run into difficulties. Holders of certificates may be affected by such a regulatory measure with their claims to payment(s) (the so-called "bail-in"), and this may result in the loss of a substantial part of the invested capital or even a total loss for all types of certificates.

## What You Should Consider Before the Purchase of Bonus Certificates:

- **Market risk:** The price of the Bonus Certificate is dependent on the underlying's performance. An unfavourable performance of the underlying may result in price fluctuations of the certificate during the term. This may result in a partial or even total loss of the invested capital.
- **Barrier event:** If the barrier of the Bonus Certificate is touched or undercut during the term, the protection mechanism is suspended. In this case, the investor is exposed to the market risk on a one-to-one basis and a substantial capital loss is possible. The redemption at the end of the term is then usually one-to-one with the underlying performance.
- **Price performance:** During the term, the certificate's price is not only dependent on the underlying's performance but on various influencing factors such as the underlying's volatility, interest rates, issuer's solvency or remaining term. Selling the Bonus Certificate prior to maturity may result in a partial or even total loss of the invested capital.
- **Yield limitation:** Depending on the product structure, a Bonus Certificate may have a maximum payout amount (e.g. cap/maximum amount or fixed interest amount).
- **Currency risk:** If the underlying quotes in a currency that is different and the product does not provide for currency hedging, changes in the exchange rate during the term of the Bonus Certificate will also affect the value of the certificate. This can additionally increase the loss from the Bonus Certificate due to the market risk.
- **Payouts of the underlying:** Dividends and comparable claims from the ownership of the underlying are taken into account in the certificate's structure and are not paid out.

ZERTIFIKATE  
AWARD AUSTRIA

Best Issuer  
2024

This certificate offers you an annual fixed interest rate of 4.35%. At the end of the term, redemption is effected at 100% provided that both underlyings always quoted above the barrier of 39% of their respective starting value during the term. In the event of a barrier violation during the term by at least one of the underlyings, investors are exposed to full market risk; this means a substantial capital loss is possible.

### How the certificate works

At the initial valuation date the starting values of the underlyings are fixed and from that the barriers are determined. During the observation period the underlying prices are compared with the according barrier.

The fixed interest rate is paid out in any case, regardless of the underlying performance. The yield is in any case limited to the fixed annual interest payments.

The following options are available at the end of the term:

- Barrier not touched or undercut  
In this case redemption is affected at 100%.
- At least one barrier was touched or undercut at least once  
In this case redemption on the maturity date will be affected according to the performance of the underlying with the worst performance. The maximum redemption remains capped at 100% of the nominal value amount.

The performance is defined as the percentage development from the starting value to the final value.

### Payout profile at the end of term

Final Value*		Redemption** if barrier	
Underlying 1	Underlying 2	not violated	violated
+20%	+30%	100% (EUR 1,000)	100% (EUR 1,000)
+15%	+5%	100% (EUR 1,000)	100% (EUR 1,000)
+/-0%	+/-0%	100% (EUR 1,000)	100% (EUR 1,000)
-10%	+25%	100% (EUR 1,000)	90% (EUR 900)
+10%	-20%	100% (EUR 1,000)	80% (EUR 800)
-20%	-40%	100% (EUR 1,000)	60% (EUR 600)

### My expectations for the underlyings

falling ↘ **sideway →** rising ↗

### During the term

- You can buy and sell the certificate during trading hours at the current price.
- The price of the certificate is subject to various influencing factors, including the performance of the underlyings, their volatility, correlation and dividend expectations as well as the interest rate level. This price may fall below the issue price and, especially if at least one of the underlyings is close to the barrier, may fluctuate strongly.

**Issuer risk / Bail-in:** Certificates are not covered by the Deposit Protection Scheme.

 Investors are exposed to the risk that Raiffeisen Bank International AG might be unable to fulfil its payment obligations in respect of the described financial instrument such as in the event of insolvency (issuer risk) or an official directive (Bail-in). A total loss of the capital invested is possible.

#### LEGAL/RISK DISCLAIMER

In spite of all possible care taken, the data contained in this advertisement are provided purely as non-binding information. This advertisement constitutes neither investment advice nor an offer nor a recommendation nor an invitation to execute a transaction. The information contained in this advertisement is generic and no consideration is given to the personal circumstances of potential investors. The information contained in this advertisement substitutes neither the necessary individual investment advice for the purchase or sale of investments nor shall any investment decision be taken on the basis of this document. This advertisement has not been prepared in accordance with legal requirements designed to promote the independence of investment research and is not subject to the prohibition on dealing ahead of the dissemination of investment research.

The complete information for all financial instruments described in this advertisement as well as the sole legal basis for potential transactions in one of the described financial instruments is the Registration Document approved by the Luxembourg Financial Market Authority (CSSF) and the Securities Note approved by the Austrian Financial Market Authority (FMA) - both documents together form the Base Prospectus - together with any supplements and the respective Final Terms of the described financial filed with the FMA. The approval of the Base Prospectus should not be construed as an endorsement of the financial instrument described herein by the competent authorities. Additional information on the financial instruments described herein may also be obtained from the respective key information documents (KIDs) that are available for download free of charge on the website of Raiffeisen Bank International AG ([raiffeisenzertifikate.at](https://raiffeisenzertifikate.at)) by entering the International Securities Identification Number (ISIN) of the respective financial instrument. Unless otherwise explicitly expressed in any of the cited documents above, no measures have been taken in any national legal system which should permit a public offering of the products described therein. Raiffeisen Bank International AG explicitly excludes any liability in relation to the correctness, appropriateness and completeness of the information presented herein. Certificates are risky instruments of wealth investment. Should the price of the respective underlying instrument of a certificate develop adversely, an investor may lose part or all of his or her invested capital. Certificates react more strongly or weakly to changes of the price of the underlying instrument depending on a number of factors (e.g. volatility or correlation of the underlying instruments, interest, dividends, remaining term, changes in foreign exchange rates) and do not move simultaneously with the underlying. Under certain circumstances the issuer is authorized to redeem the certificates prior to the agreed repayment date.

Issuer Risk/Creditor Participation ("bail-in"): Any payments during or at the end of the term of the certificates depend on the solvency of the issuer ("issuer risk"). Investors are therefore exposed to the risk that Raiffeisen Bank International AG might be unable to fulfil its payment obligations in respect of the described financial instrument such as in the event of insolvency ("issuer risk") or an official directive ("bail-in"). The resolution authority may also issue such an order before any insolvency proceedings if the issuer is judged to be in crisis. Under these circumstances the resolution authority has wide-ranging powers to take action (so-called "bail-in instruments"). For example, it can reduce the claims of investors in respect of the described financial instruments to zero, terminate the described financial instruments, or convert them into shares of the issuer and suspend investors' rights. More detailed further infor-

mation is available at [raiffeisenzertifikate.at/en/bail-in](https://raiffeisenzertifikate.at/en/bail-in). A total loss of the invested capital is possible. Past performance is no reliable indicator of future results. Please refer to the Base Prospectus for additional disclosures on risks as well as further information.

The information presented does not constitute binding tax advice. Tax treatment of investments is dependent on the personal situation of the investor and may be subject to change. As regards tax treatment and impact on the investor's individual tax situation, the investor is advised to consult with a tax advisor. This report is based on the knowledge the persons preparing the document have obtained up to the date of creation. Please note that the legal situation may change due to legislative amendments, tax directives, opinions of financial authorities, jurisdiction etc.

The Bonus Certificate's price is subject to several influencing factors and need not develop simultaneously to and in accordance with the underlying's performance. Such influencing factors include e.g. intensity of the underlying's price fluctuations (volatility), bond interest rates, solvency of the issuer or remaining term. If the Bonus Certificate is sold prior to the end of the term, there is the risk to incur a partial or even total loss of the invested capital. Dividends and similar rights associated with the underlying are taken into account when structuring the Bonus Certificate and are not paid out.
