Information on the term

Please note:

- 100% of the nominal amount will in any case be paid out at maturity; during the term, the price may fall below the issue price or the capital protection level. Selling the certificate prior to maturity may result in a partial loss of the invested capital.
- The maximum repayment is limited to 125% (of the nominal amount).
- Loss of purchasing power due to inflation is not offset by the capital protection.

Issuer risk / creditor participation: Certificates are not covered by the deposit protection system. There is a risk that Raiffeisen Bank International AG may not be able to meet its payment obligations due to insolvency (issuer risk) or any official orders ("bail-in"). In such cases, the invested capital may be lost in full.

Since ancient times, gold has been of central importance as a means of payment and investment. Even today, many investors still regard gold as a "safe haven". Supported by the current market environment, gold recorded an increase in value of around 10% last month. Especially the falling yields on the bond market had a positive effect on the gold price. Against the backdrop of weakening global economic growth, the ECB and the US Federal Reserve recently announced further economic support in the form of a renewed easing of monetary policy. The resulting sustained low level of interest rates makes investing in gold increasingly attractive for many investors.

Therefore Raiffeisen Centrobank issues the **USD Gold Winner 2** for safety - oriented investors who expect the gold price to post at least a moderate rise within in the next five years, and who also wish their investment to be 100% capital protected at the end of the term. At maturity, investors participate 1:1 in the positive gold price development up to the cap of 125% of the starting value. This means the maximum payout is limited to USD 1,250 per nominal value. In case of a negative index performance, the capital protection of 100% applies at the end of the term. The certificate has a term of 5 years. For details on risks and opportunities please see the following pages.

FUNCTIONALITY

Beginning of the term:

At the initial valuation date **the starting value of LBMA Gold Afternoon Fixing Price (03:00 p.m. London BST)** as of August 22, 2019 and the cap (125% of the starting value) are determined.

End of the term:

At the end of the term, the performance of gold is evaluated. Therefore, the index starting value is compared to the LBMA Gold Afternoon Fixing Price (03:00 p.m. London BST) at the final valuation date (August 20, 2024). Investors participate 1:1 in the performance of the gold price development. The cap of 125% of the index starting value represents the maximum amount (equals USD 1,250 per nominal value). In case of a negative performance of gold, the capital protection of 100% applies.

At the end of the term the investment is **100% capital protected** by Raiffeisen Centrobank AG, i.e. during the term price fluctuations may occur, but at the end of the term the investor obtains at least 100% of the nominal value.

UNDERLYING: GOLD (London Afternoon Fixing)

The most common way of investing in gold is by buying gold bars or gold coins. In the USD Gold Winner 2 certificate, gold is reflected by the spot price. Its price is fixed in London in US dollars per troy ounce.

The relevant price for observation is the London Gold Afternoon Fixing (03:00 p.m. London BST). The gold price is determined twice a day and is calculated and published by the London Bullion Market Association (LBMA).

For further information see the Base Prospectus (including possible amendments) – approved by the Austrian Financial Market Authority (FMA), deposited at the Oesterreichische Kontrollbank AG and published at www.rcb.at/en/securitiesprospectus, in the key information document and among „Customer Information and Regulatory Issues“ at www.rcb.at/en/customerinformation

At the final valuation date one of the following scenarios applies:

SCENARIO 1: Gold price development is POSITIVE

At the end of the term the positive gold price development from the starting value to the closing price at the final valuation date up to a maximum of +25% is paid out in addition to the nominal value (equals a maximum payout of USD 1,250 per nominal value).

SCENARIO 2: Gold price development remains UNCHANGED or is NEGATIVE

In case of a negative gold price development, the capital protection of 100% applies at the end of the term. In this case, redemption is effected at 100% of the nominal value at the end of the term (equals USD 1,000 per nominal value).

EXAMPLE: REDEMPTION

MARKET	INDEX PERF.	MECHANISM	REDEMPTION
POSITIVE	+50%	Redemption at the maximum amount (Cap)	USD 1,250
POSITIVE	+20%	1:1 Participation	USD 1,200
POSITIVE	+10%	1:1 Participation	USD 1,100
NEGATIVE	-20%	100% Capital protection	USD 1,000
NEGATIVE	-50%	100% Capital protection	USD 1,000

Currency risk/opportunity: This certificate is not currency hedged. If the cash flows from the certificate (repayment) are later converted into another currency, additional risks as well as opportunities arise from possible fluctuations of the currency price in relation to the nominal value.

OPPORTUNITIES

- **100% participation:**
With this certificate, investors participate 100% in the positive gold price development up to the cap of 125% of the starting value.
- **Capital protection:**
The USD Gold Winner 2 is 100% capital protected at the end of the term, i.e. at the end of the term (August 2024) the investor obtains at least 100% of the nominal value.
- **Secondary market:**
Flexibility because of tradability on the secondary market, no management fees

RISKS

- **Limited yield opportunity:**
The maximum payout is limited to USD 1,250 per nominal value. Investors do not participate in increases in the gold price above 125% of the starting value.
- **Price fluctuations during the term:**
During the term the price of the certificate may drop below 100%; the capital protection applies exclusively at the end of the term.
- **Currency risk:**
This certificate is nominated in USD. For Euro-investors this means a currency risk.
- **Issuer risk:**
Certificates are not covered by the Deposit Protection Scheme. Investors are exposed to the risk that Raiffeisen Centrobank AG might be unable to fulfil its payment obligations in respect of the described financial instrument such as in the event of insolvency (issuer risk) or an official directive (Bail-in). A total loss of the capital invested is possible.

Raiffeisen Centrobank AG explicitly excludes any liability in relation to the correctness, appropriateness and completeness of the information presented herein.

During the term, the market price of the certificate may drop below 100% of the issue price due to price fluctuations. The capital protection of 100% exclusively applies at the end of the term. The market price of the certificate need not develop simultaneously in accordance with the market price of the underlying instrument during the term. During the term, the market price of the certificate is subject to various influencing factors such as volatility, coupon, credit rating of the issuer and remaining term.

Issuer Risk/Creditor Participation ("bail-in"): Redemption or repayment of the certificate at the end of the term is dependent on the solvency of the issuer (issuer risk). Investors are exposed to the risk that Raiffeisen Centrobank AG as an issuer might be unable to fulfil its obligations in respect of the described financial instruments, such as in the event of insolvency (inability to pay/over-indebtedness) or a legal order to initiate resolution measures. The resolution authority may also issue such an order before any insolvency proceedings if the issuer is judged to be in crisis. Under these circumstances the resolution authority has wide-ranging powers to take action (so-called "bail-in instruments"). For example, it can reduce the claims of investors in respect of the described financial instruments to zero, terminate the described financial instruments, or convert them into shares of the issuer and suspend investors' rights. A total loss of the capital invested is possible. More detailed information is available at www.rcb.at/en/basag
