#### DESCRIPTION

The certificate has a pre-defined maximum term. Higher early redemption is made, if, at any of the valuation dates, the underlying quotes at or above the termination level.

If the underlying price is below the termination level the term extends to the next valuation date. At the end of the maximum term, the barrier serves as additional safety mechanism.

This certificate complies with the **sustainability standard for Raiffeisen Certificates** and takes into account important adverse impacts on sustainability factors ("PAIs").
