Oczekiwany trend rynkowy	boczny, wzrostowy
Notowanie	Warszawa
Waluta produktu	PLN
Waluta instrumentu bazowego	PLN
Sposób rozliczenia	rozliczenie gotówkowe / fizyczna dostawa
Opodatkowanie	Podatek od zysków kapitałowych / Podatek EU od dochodów kapitałowych

## OPIS

Obserwacja bariery ma miejsce jedynie na końcu okresu obserwacji: jeśli w dacie końcowej wyceny kurs zamknięcia instrumentu bazowego leży powyżej bariery, w dacie wykupu wypłacana jest kwota bonusu. Wysokość kwoty wykupu jest ograniczona limitem górnym (tzw. maksymalna kwota wykupu).

Jeśli w dacie końcowej wyceny bariera zostanie dotknięta lub przekroczona, mechanizm bonusowy ulega deaktywacji. W tym przypadku wypłata w dacie wykupu odpowiada procentowej zmianie ceny instrumentu bazowego. Jednak nawet w przypadku deaktywacji mechanizmu bonusowego wysokość maksymalnej kwoty wykupu jest stała, a Inwestor nie ma udziału we wzroście wartości instrumentu bazowego ponad limit górny (cap).

## ZMIANA CENY OD DNIA EMISJI

Wyniki osiągnięte w przeszłości nie są wiarygodnym wskaźnikiem przyszłych wyników.

## Disclaimer

### Issuer Risk:

As a bearer bond, a certificate is not subject to Austria's deposit protection. If, in the event of insolvency, the issuer is unable to meet its obligations from the certificate, or is only able to meet them in part, certificate holders may lose a substantial part of the capital invested, or even a total loss. This risk is often also referred to as "issuer risk" or "creditworthiness risk".

### Possibility of Bail-in:

The Federal Act on the Recovery and Resolution of Banks ("BaSAG") applies. The BaSAG regulates the possibility of the regulatory resolution of banks that have run into difficulties. Holders of certificates may be affected by such a regulatory measure with their claims to payment(s) (the so-called "bail-in"), and this may result in the loss of a substantial part of the invested capital or even a total loss for all types of certificates.

## What You Should Consider Before the Purchase of Certyfikaty bonusowe:

- **Market risk:** The price of the Bonus Certificate is dependent on the underlying's performance. An unfavourable performance of the underlying may result in price fluctuations of the certificate during the term. This may result in a partial or even total loss of the invested capital.
- **Barrier event:** If the barrier of the Bonus Certificate is touched or undercut during the term, the protection mechanism is suspended. In this case, the investor is exposed to the market risk on a one-to-one basis and a substantial capital loss is possible. The redemption at the end of the term is then usually one-to-one with the underlying performance.
- **Price performance:** During the term, the certificate's price is not only dependent on the underlying's performance but on various influencing factors such as the underlying's volatility, interest rates, issuer's solvency or remaining term. Selling the Bonus Certificate prior to maturity may result in a partial or even total loss of the invested capital.
- **Yield limitation:** Depending on the product structure, a Bonus Certificate may have a maximum payout amount (e.g. cap/maximum amount or fixed interest amount).
- **Currency risk:** If the underlying quotes in a currency that is different and the product does not provide for currency hedging, changes in the exchange rate during the term of the Bonus Certificate will also affect the value of the certificate. This can additionally increase the loss from the Bonus Certificate due to the market risk.
- **Payouts of the underlying:** Dividends and comparable claims from the ownership of the underlying are taken into account in the certificate's structure and are not paid out.

This advertisement serves exclusively as non-binding information, for whose correctness, topicality and completeness no guarantee is assumed by the creator. The information contained herein does not constitute an offer and is neither recommendations nor financial analyses. They are not a substitute for investor and investment-oriented advice on buying and selling the financial instrument.

The base prospectus (and any supplements) of the financial instrument, as well as the respective basic information sheet (KID), can be downloaded from the website of Raiffeisen Bank International AG (RBI) [raiffeisenzertifikate.at/en/securities-prospectus/](https://raiffeisenzertifikate.at/en/securities-prospectus/). The approval of the base prospectus does not constitute an endorsement of this financial instrument by the competent authorities (CSSF, FMA). You are about to acquire a product that is not easy and may be difficult to understand. We recommend reading the prospectus before making an investment decision.

The information presented does not constitute binding tax advice. Tax treatment of investments is dependent on the

personal situation of the investor and may be subject to change.

If the underlying is not quoted in the same currency as the product and if the certificate is not currency hedged, the foreign exchange rate influences the Certificate's price during the term (currency risk).

The financial instrument and the associated product documents may not be offered, sold, resold or delivered or published, either directly or indirectly, to natural or legal persons who are resident/registered office in a country in which this is prohibited by law. In no event may this document be distributed in the United States of America ("U.S.A.")/to U.S. persons and the United Kingdom ("U.K.").
